

REclaim Exhibition

We would like to invite you to be involved in a new exciting exhibition at The Skyway Gallery in Shoreham.

The Skyway Gallery at The Shoreham Centre, in collaboration with Over the Moon, will be holding an exhibition from 18 May to 2 June 2019 which will be part of a wider REclaim festival with many events and workshops taking place.

With this project we hope to give people in the community, including children and young people, a voice to share their feelings and thoughts on the realities of pollution and climate change, and to open the eyes of the community to the problems the younger generations face.

Individuals and groups will be able to submit artwork and the gallery also will work alongside youth groups such as Esteem and local schools and will display a variety of artwork created by a mix of age groups. All the artwork submitted will automatically be entered into our competition giving participants the chance to not only have their work displayed to the public but also the chance to win a prize. There will be prizes for different age categories as well as a visitors' choice.

Young People's Entries: There are 3 different ways to participate in the project.

- 1. Designing and creating a recycled sculpture of an animal out of waste materials (such as plastic).** This would be done in a larger group (such as a class/after school club or youth group) over a period of months or weeks although submissions must be made known to us by 31 March. Please bear in mind that transportation of the sculptures is the responsibility of the artists and that the sculpture will need to be installed on Friday 17 May and taken down on Sunday 2 June. The Skyway Gallery has limited space so a visit to check availability is suggested.
- 2. Making a short film about the effects of climate change using a smart phone or similar device.** This can be done individually or as part of a small group. Footage must not be longer than 1 and a half minutes. Please bear in mind that these films will be shown at the exhibition to public so children under 18 must have parental permission to take part.
- 3. Submitting a 2D or 3D art piece of your choosing: this could also be a piece of writing.** This can be any art form such as a painting, photograph or collage as long as the piece is related in some way to pollution and climate change. These must have D-rings attached to the back for hanging purposes.

Adult entries

People over 18 are welcome to participate by submitting a 2D or 3D piece of art related to pollution or climate change.

Prizes will be awarded on the 2nd of June at the end of the exhibition. Participants must also collect their artwork on this day. Please ensure materials used are safe for exhibiting: please check for sharp edges when submitting artwork. Attached is a form young people can fill out to participate, Groups can fill out one form for the whole group. For further information please email gallerassist@skywaygallery.org.
